

Dear Teachers,

Our School has found an easy way to insure our students purchase the correct School Supplies as well as raise money for our school. U.S.A. School Supplies, a local Portland company, has designed a program which creates a custom school supply kit ***based on your specific supply list***. Parents simply log onto their website and place their order. All the kits are delivered to our school and ready to use on the first day of class.

By utilizing this program our parents will no longer need to endure driving to multiple stores, finding empty shelves and fighting long lines to fulfill our supply lists. It also ensures that our students will have the exact supplies we require. U.S.A. School Supplies will also donate 10% of the purchase price of all "Classroom Custom Supply Kits" right back to our school. We also have the opportunity to supply deserving students with donated supply kits and raise funds for needed items through the U.S.A. School Supplies "Teacher Wish List" Program.

We are excited about this opportunity to provide a win-win solution to our students, teacher and parents. We will have more information in the near future. In the meantime, feel free to visit their website at www.usaschoolsupplies.com for more information about this exciting new way to buy school supplies.

Sincerely,
